

## Pay Inside Option

The Mobile Pay Inside option allows consumers to use mobile payment methods conveniently from inside the store, enhancing their shopping experience with greater flexibility and ease.

Passport systems can use the credit MOP button and scan the barcode to capture the transaction. Verifone systems require additional configuration to allow this feature, and POS settings must be adjusted. Please see the required steps below to ensure accurate configuration.

### Mobile Method of Payment (MOP)

To begin, log into the Verifone Configuration Client and create a method of payment type called **Mobile**:

1. Select **Store Operations**
2. Select **Payment**
3. Select an empty Payment ID number to use and edit it with the following:

Field Title	Action or Content Required
Name	Mobile
MOP Code	28-MOBILE
Minimum Amount	0.00
Maximum Amount	0.00
#Additional Receipts	0
Tender Code	Leave blank (entry will default to "generic")
Tender Sub Code	Leave blank (entry will default to "generic")
Allow Refund	<b>Enabled</b> ( <i>Box checked</i> )
Force Ticket Print	<b>Enabled</b> ( <i>Box checked</i> )

## Mobile Tender Key Base 53

Add a **Mobile** payment key to the touchscreen:

1. Select **Store Operations**
2. Select **Touch Screen**
3. Select **Panel Configuration**
4. Select the desired panel
5. Select **Add Item**
6. From the dropdown menu, select **MOP**
7. From the dropdown menu, select **Mobile**
8. Select **OK**

Locations must have a **2D Barcode Scanner** configured to scan QR codes. Contact your equipment distributor to purchase a scanner or [TechQuidation](#), which offers exclusive pricing for CITGO Marketers and CITGO-branded retail locations, including 2-D scanners.
