

## Premier Status - How Does it Work?

All members of the Club CITGO program will participate in a Tiers program.

### Tier Levels

#### Tier 1 – Basic

- Everyday offer (3 CPG)
- Triple Tuesday (9 CPG – 1X per month)
- 5¢ Friday (5 CPG total – 1X per month)

#### Tier 2 - Premier

- Everyday Offer (6 CPG)
- Triple Tuesday (18 CPG- 1X per month)
- 5¢ Friday (5 CPG total – 1X per month)

### Tier Status

- To move into the Premier Tier, members will need to complete 12 fuel transactions in the Evaluation Period, with a minimum of 8 gallons.
- Users will immediately receive benefits of the Tier status if they achieve it within the Evaluation Period\*.
- Users who achieve tier status while in the Evaluation Period will have the status benefits for the remainder of their current Evaluation Period along with the next Benefit Period\*\*.
- Users who fail to achieve Premier status during the Evaluation Period will remain in the Basic Tier.

### New Member/Initial Evaluation Period

New members / registrations will have the current Quarter + the next quarter for their initial Evaluation Period. This is to ensure users who register/join during a current Evaluation Period have enough time to understand the program and receive potential benefits.

Example - A user that registers in Month 2 of the current Evaluation Period (Calendar Quarter) would have the remainder of that quarter, plus the following quarter as their initial Evaluation Period. Their first official benefit period would start in the Third Quarter.

- Q1 + Q2 = Evaluation Period
- Q3 = First benefit Period and Evaluation Period for Q4

\*Evaluation Period – Calendar Quarter – time frame to complete Tier status requirements outlined above, following the initial Evaluation Period.

\*\*Benefit Period – Calendar Quarter – time frame users will have benefits earned from previous quarter Evaluation Period.
